Slide	Audio	On Screen Text	On-screen Graphics	Graphic/ User Notes	Reviewer												
1. Title Slide		The Scum team: key responsibilities start button		Title shape slide animation to reveal start button (slide across)													
2. Interaction slide		<p><i>Introduction and instruction</i></p> <p>For the scrum to be efficient in a company, each team member has a defined role and outcome objectives. Each member contributes to continuous improvements throughout the project.</p> <p>Match the responsibilities to the corresponding team member.</p> <hr/> <p><i>Interaction</i></p> <table><tr><td> Icon or image</td><td>Scrum Master (drop area)</td><td>Facilitates the team through Agile development practices</td></tr><tr><td></td><td></td><td>Protects team from distractions</td></tr><tr><td> Icon or image</td><td>Scrum Product Owner (drop area)</td><td>Identify areas to increase return on investment(ROI)</td></tr><tr><td></td><td></td><td>Owns and prioritises the Product Backlog</td></tr></table>	 Icon or image	Scrum Master (drop area)	Facilitates the team through Agile development practices			Protects team from distractions	 Icon or image	Scrum Product Owner (drop area)	Identify areas to increase return on investment(ROI)			Owns and prioritises the Product Backlog		<p>Instruction text should appear over the interaction (lightbox) before interaction appears</p> <p>The user click close x to create reveal drop and drag interaction.</p> <p>Answer options should be randomised</p> <p>Submit button appears when interaction completed correctly</p> <p>Correct answer slide follows for review with next button</p>	
 Icon or image	Scrum Master (drop area)	Facilitates the team through Agile development practices															
		Protects team from distractions															
 Icon or image	Scrum Product Owner (drop area)	Identify areas to increase return on investment(ROI)															
		Owns and prioritises the Product Backlog															

		<div> <div> <div> Icon or image</div> <div>Development Team (drop area)</div> </div> <div> <div>Test product increments</div> <div>Deliver product increments for each Sprint</div> </div> </div>				
		<i>Correct answer layer appears after</i>				
3. Feedback slide		<p>As you can see each team member has specific tasks. A team that uses the Scrum method are clear on their distinct responsibilities to reach their objective.</p> <p>Unlike traditional structures, a Scrum team doesn't need a product manager, a task manager or a team leader – team members are self-organised to maximize productivity.</p>			Next button	
4. References and complete task slide		<p>Activity book</p> <p> Reference Icon</p>			<p> Reference book icon. Click to reveal box with references</p> <p>Exit button to close.</p>
